INFORMATION ON COMPLETING YOUR TAX RETURN FINANCIAL YEAR ENDED 30 JUNE 2010

Completing your income tax return may be complicated for many investors, especially as your investment in the Coonawarra Premium Vineyards Project means that you are operating a business and you must complete the appropriate business schedules in the tax return.

If you require assistance in completing your tax return, please contact your registered tax agent or alternatively contact the Australian Taxation Office. The ATO website www.ato.gov.au provides guidance and information that may assist you.

The Project returned income to all investors this year, and this must be included as assessable income in your income tax return. Investors will also be able to claim deductions as detailed in Product Ruling 1999/61 but the Product Ruling addendum - Product Ruling 1999/61A, which confirmed that the Commissioner had exercised his discretion that the non commercial loss provisions do not apply to this Project, has now expired. Coonawarra Premium Vineyards Limited's application for the Commissioner of Taxation to exercise his discretion for the 2004 year was declined. The ATO will only consider private ruling applications from individual taxpayers. To assist investors a copy of the appropriate application form, with generic information completed where possible, is available on the confidential investor section of the website at www.coonawarravineyard.com.au. Please contact administration on (08) 8338 3400 or email investors@coonawarravineyard.com.au if you need a reminder of your password.

For individual investors, Income and Deductions should be included on the Supplementary Section to your Income Tax Return, and specifically in the Business and Professional Items section of the Return.

| Prior years grapes adjustment (note 1) | (59.94) | - | Decrease in trading stock in year | (20.85) |

| Total assessable income | 522.65 | 560.72 | | |
| Closing debtors (note 2) | | 491.84 | | |

Note 1: This adjustment relates to the changes to 2009 invoiced value of the harvest as a result of the release of the 2009 District Weighted Average Prices in September 2009 and the Baume Bonus calculation on the 2009 grape harvest also adjusted in September 2009.

Note 2: For taxpayers on a cash basis, grape proceeds not collected from wineries prior to 30 June 2010 will need to be included as assessable income in the year of collection (which will be advised in future notices). Sale Proceeds not collected as at 30 June 2010 include \$91.93 for grape sales for the year ended 30 June 2009, \$238.59 for grape sales for the year ended 30 June 2010, and \$61.19 (net of GST) for bulk wine sales. Closing debtors also includes \$102.62 for Nugan settlements for the 2010 vintage.

Note 3: Nugan receipts for accrual tax payers are proceeds from the settlement awarded in the Nugan claim for the 2010 harvest. Nugan receipts for cash taxpayers are the proceeds from the settlement received during the year. All settlements due in the year ending 30 June 2010 have been received.

EXPENSES

Deductions for expenditure incurred in respect of the Project are outlined in the attached notes.

Further deductions may be available for interest on any loans that you have taken out to finance your investment.

BUSINESS ACTIVITY STATEMENT

Investors who have registered for GST will need to include the expenses of the Project on their Business Activity Statement in the relevant quarter that it relates. The amount to include will depend on whether you are on a cash or non-cash basis. If you are registered on a cash basis then you need to include expenses actually paid in the relevant quarter. Investors will need to keep their own records of payments made, as a fee may be charged to provide this information again.

If you are registered on a non-cash/accruals basis then you need to include expenses in the quarter the invoice is dated as.

Note that there is no GST on grape income but there may be GST on bulk wine sales income if you are registered for GST.

TRADING STOCK

Growers should also include the value of bulk wine on hand as an amount for trading stock. Each Grower Unit is entitled to 18.31 litres of wine from the 2008 vintage.

The closing market value of the wine is considered to be \$25.89 per Grower Unit. The value at June 2010 was reduced to reflect the current oversupply conditions in the wine industry. All grapes, other than rain damaged Petit Verdot from Block 10, were sold in 2010.

Each investor should seek their own independent advice as this is only a summary and should not be construed as tax advice.

**COONAWARRA PREMIUM VINEYARDS PROJECT
FINANCIAL YEAR ENDED 30 JUNE 2010**

***Taxation Deductions are in accordance with Australian Taxation Office Product
Ruling PR 1999/61.***

** Deductions on this summary should be multiplied by the number of units held by each investor **

Explanations of Available Taxation Deductions:

Note: The tax deductions referred to below do not include GST and assume that each Grower is registered for GST. In this situation GST can be claimed back from the Australian Taxation Office and is not deductible for Income Tax Purposes. If you are not registered for GST then the amount of GST paid by you in relation to each of the items of expenditure will form part of the cost of that item and will form part of your deduction.

(a) Division 40 of the Income Tax Assessment Act 1997 ("the 1997 Act") allows a deduction for depreciation on plant and equipment (which includes trellising). Trellising in the Project was installed progressively over the 1999/2000 year in line with the Project subscriptions. The deduction available under Division 40 of the 1997 Act can be calculated using the appropriate depreciation rate (either 'prime-cost' or 'diminishing balance'). The depreciation rate and method used for the 30 June 2010 year should be consistent with the depreciation method and rate used in prior years.

(b) Section 40-645 (formerly section 287-355) of the 1997 Act permits a deduction for expenditure in connecting power to land. This deduction is spread equally over 10 years, allowing a 10% deduction each year. A deduction of \$8 will be available in the year ending 30 June 2010.

(c) In accordance with section 40-515 (formerly section 387-165) of the 1997 Act a deduction is allowed for expenditure on establishing horticultural plants from the time they enter their year of first production. The manager considers that the vines have an effective life for the purposes of section 40-545 of less than 30 years, and therefore a write-off rate of 13% of the original establishment costs can be used. A deduction can be claimed of $\$484 \times 13\% = \63 write-off for the year ending 30 June 2010.

(d) Management Fees charged in 2008/2009 of \$788 relate to services provided by the Manager during the year ended 30 June 2010. If a Grower held only 1 unit then this amount was fully deductible in the year ending 30 June 2009 as it is less than \$1,000 (section 82KZM of the Income Tax Assessment Act 1936). If a Grower holds more than one unit, and had elected to be a "Simplified Tax System" taxpayer the \$788 was fully deductible in the 2009 year as it is in relation to expenditure on services to be provided within 12 months. *For either of these scenarios, there will be no deductions available for the year ending 30 June 2010.* If a Grower was not a "Simplified Tax System" taxpayer then this amount will be deductible in the year ending 30 June 2010.

(e) Management Fees charged in 2009/2010 of \$810 relate to services provided by the Manager during the year ending 30 June 2011. If a Grower holds only 1 unit then this amount is fully deductible in the year ending 30 June 2010 as it is less than \$1,000 (section 82KZM of the Income Tax Assessment Act 1936). If a Grower holds more than one unit, and is a "Small Business Entity" taxpayer the \$810 can be fully deductible in the 2010 year as it is in relation to expenditure on services to be provided within 12 months. If a Grower is not a "Small Business Entity" taxpayer, then the deduction may be available in the following year.

(f) The quarterly Grant of Use (Licence) amounts of \$192.20, totalling \$767, are deductible in the year ended 30 June 2010.

(g) Recoverable Harvest and Other Recoverable Costs of \$95.13 are allowable as a deduction in the year ending 30 June 2010.

Non-Commercial Loss Provisions

Product Ruling (addendum) PR1999/61A which confirmed that the Commissioner had exercised his discretion and the non-commercial loss provisions do not apply to investors in this Project has now expired. The ATO acknowledges that Growers are entitled to request private rulings in relation to the exercise of the Non Commercial Loss provision discretion, however the ATO have stated it is unlikely that a positive ruling will be forthcoming. CPVL is continually working with the ATO on this matter. To assist investors a copy of the appropriate application form, with generic information completed where possible, is available on the confidential investor section of the website at www.coonawarravineyard.com.au.
